Welcome to our page! We are responsible for the provision of Education and Training materials for surface finishing technologies. This can take the form of Distance Learning modules and Tutored courses from Foundation to Technician and onto the Advanced Technician Certificate.

All material is regularly updated to remain relevant and has been extended during 2009 and 2010. Tailored course can be created, specific to the needs of an individual company. All modules subject to students passing an examination, lead to receipt of certification.

If you want to improve your surface finishing skills and knowledge, contact Karen Yates on the above number.

Knowledge and Training Division

Improving and developing the skills and knowledge within the surface finishing aspect of your business is a crucial element to ensuring that you maintain your competitive edge in your specific market sector.

The IMF have a division that is dedicated to supporting your company with employee training and wide ranging qualification packages that comprise of:

- Tutored classes
