

The Institute of Materials finishing (Southern Branch) is presenting an upcoming seminar entitled:

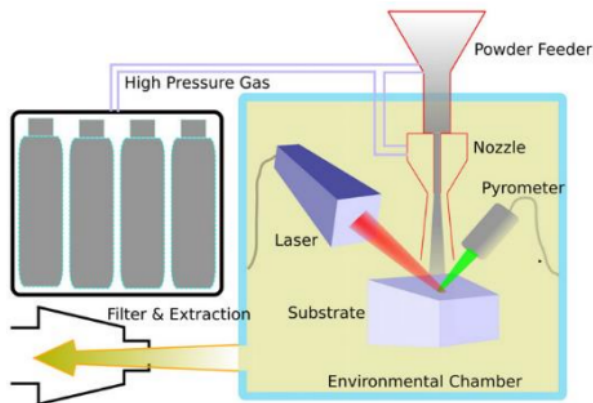

## **Laser Assisted Cold Spraying of IN718 for Structural Repairs**

**By: Parcelino Sudigdo (PhD student from Nottingham University)**

Date of seminar: Wednesday 6<sup>th</sup> March

Time: 19:15

The project (which is an account of PhD research progress to date) aims to investigate the influence of laser and cold spray parameters towards the microstructures and mechanical properties of the fabricated IN718 coatings.

This exciting new technology should prove to be very interesting and we look forward to welcoming you to this event and hope that you will find it very interesting.

The seminar is to be held over the “Zoom” platform.
